1. Fees for applications not covered in this schedule will be determined by Council at the time of application.
2. Fees may be negotiable under special circumstances. Council may waive or partially waive a development application fee where:-
 Strict application of the scheduled fee is obviously unreasonable for the type of application being received, and/or
 If, because of the nature of the application there will be lower costs incurred by Council in processing the subject application
 Requests for fee reduction must be made in writing and will be determined when the application is decided at which time the agreed reduction will be refunded.
3. If a review of a technical report is required to be outsourced by Council, the cost of that review is to be paid by the applicant.
4. Fees for a combined application will be charged at the higher application fee only (involving more than one type of development and/or multiple land use).
5. Any application not accompanied by the required application fees can not be processed under PA 2016 because such an application will not be a 'properly made application' as stipulated under this Act. Delays may occur until the appropriate fee is submitted to Council. Applicants are urged to discuss fees with Council staff before lodging any Development Application.
6. The Planning fees nominated for MCU's, RAL's and Op Works are inclusive of the lodgement fee (\$160), assessment fee and inspection fees.
7. Inspections of completed projects are mandatory. If any inspection of such is failed and a reinspection is required the fee will be \$170.00 for sites within 10km of the post office. For distances greater than 10km - fee to be advised.
8. 48 hours notice is required before any inspection.
9. Council will provide prelodgment advice up to the value of \$300 (consultant costs + staff time). This will be calculated by the hours spent assessing the enquiry and providing advice to the applicant. Any additional costs are to be paid by the enquirer

INSPECTIONS

(a) Inspections are mandatory. Note: the inspection fees quoted are for inspections within 10km of the nearest major towns post office. For inspections greater than 10km from the post office refer to table herein.

(b) Class 1a & 1b (dwelling)

three (3) inspections are required for dwelling on stumps (Building inspections only)

four (4) inspections are required for dwelling – slab on ground. However, if footing and slab are poured as one – only three (3) inspections are required.

(c) Class 2 to 9 buildings – normally three (3) inspections (Building inspections only). Exact number of inspections to be confirmed and applicant advised.

(d) The number of inspections required may vary from those stated above depending on the complexity of the project. If additional inspections are required the fee is payable before issue of the Development Permit.

(e) Where an application is lodged with, and a Development Permit issued by the Council, the carrying out of the required inspections, as nominated in the decision notice and schedules is to be done by Council's Building Certifiers unless they agree to these inspections being done by others (Competent Person).

(f) If slab and frame inspections are done by others, Councils fee for accepting each certification and administration thereof = \$30.00. Each certification is to be received by Council within 5 business days of inspection date.

(g) The footing and final building inspection must be done by Council's Building Certifiers if the application has been lodged with and approved by Council.

(h) If any inspection is failed a re-inspection is required. Refer inspection fees.

(i) 48 hours notice is required before any inspection day/time, this includes any changes to a previously booked time. Should Council not be able to carry out this inspection, we will arrange for a "Competent Person" to carry out the inspection. Any additional costs in doing such may be charged to the applicant.

(j) Where an application involves two (2) or more buildings – eg. additions to dwelling and detached shed a lodgement fee is required for each structure.

(k) Council reserves the right to refuse to undertake inspections for a third party.
